Dear Ms. Cowie:

As one who has benefitted greatly from the treatments which you have given to me, I can enthusiastically support both your work as a practitioner, and massage therapy as a modality in the treatment of some ailments. There is no doubt in my mind that stress or stress related problems can be treated very effectively, as they have been in my case, by acupressure and massage therapy in general. I know that there is a confirmed need within the health delivery system of our society for prescription drugs of a variety of kinds. However, it appears to me that where we can, we ought to avoid chemicals as much as possible. Massage therapy is a wholesome alternative.

If there is anything that I can do to help your profession in gaining recognition, please do not hesitate to call me.

Sincerely yours,

Benno Friesen, M.P.
